

## **1- Pilgrimage in the Steps of St Paul**

A tour of Greece, visiting the places connected with St Paul, with an excellent guide who taught us much about the cultural and political scene encountered by St Paul, as well as Greek history, geography, language, archaeology, myths and legends.

### **Rating for McCabe Pilgrimages:**

This was my third pilgrimage with McCabe. Their tour guides are the crème de la crème, coach drivers excellent, hotels of a very high standard and overall their tours represent good value for money.

## **2- It was a moving experience to hear a bible passage about where St Paul visited and to be standing in the same place. I cannot comprehend the age of ruins excavated in Greece.**

McCabe Pilgrimages organised an interesting holiday with a variety of places of interest on route. The leader from York was excellent and prepared appropriate bible readings for the places visited. The Guide in Greece was excellent with a depth of knowledge which she relayed in a understandable way, without notes. The driver was also excellent, having some very difficult turns to make on the way up and down

the mountains. The hotels were of good standing and excellent food. Very enjoyable holiday.

**Rating for McCabe Pilgrimages:**

The initial booking of the holiday was hassle free. However, the airline changed its flights and we had to travel to Stansted, instead of Manchester, on the outward journey. McCabe paid an amount towards the cost of the coach and then provided a buffet lunch at the Airport in a lounge. This was very much appreciated and allowed the group to use the lounge until the gate opened. The remainder of the holiday was well organised with nothing untoward to report.
