

Iran

A really fascinating insight in to the country and particularly the people

A well organised tour of all the sites of major interest in Iran. The highlights being The Imam Khomeini Square in Isfahan, Persepolis and Yazd. The group were well looked after by a very good guide and an excellent Driver given that the driving in Iran is indescribably bad! The Hotels were good and the meals were good quality and interesting when regional menus were chosen. The Guide was outstanding and well organised.

Rating for McCabe Pilgrimages:

A well thought out tour given the amount of distance covered and all the places to visit. It was a huge benefit that all meals were provided and tips included in price of holiday.
